REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance claim 101 is that the prior art of record does not teach the steps:

calculating during the processing of a print job for control of a single sheet a first and a second desired points in time at or until which the first sensor signal is expected to be generated by detection of a leading edge of the single sheet from the first and second sensors via a first subordinate control module;

calculating during the processing of a print job for control of a single sheet a third and a fourth desired points in time at or until which the first and second actuators are to be activated with a second subordinate control module;

determining which one of the first and second desired points in time is to be used in determining when the leading edge of the single sheet to arrive at the first sensor;

monitoring the arrival of the leading edge at the first sensor using the first controller;

determining which of the at least third and fourth desired points in time is to be used in determining when the first actuator to be activated using the first controller; and

providing an interrupt signal and transmitting the interrupt signal to a time process task upon reaching one of the first through fourth desired points in time via a control unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Nguyen whose telephone number is (571) 272-2169. The examiner can normally be reached daily from 9 AM to 5PM.
